Net sales	¥ 1.30 trillion	[100.3% YoY]
Ordinary profit	¥ 130 billion	[109.2% YoY]
Profit attributable to owners of parents	¥ 82.0 billion	[88.2% YoY]

Shareholder Returns

◆ Treasury share acquisition (Actual)	¥ 19.8 billion (3.46% *)	Dividend per Share 166 yen (Actual)
(Planned)	¥ 20 billion (4.29% *)	(Forecast) 168 yen

Business Trends

◆ Sales in the single-family home business, inventory adjustments completed in FY2024, and gross profit margin is expected to improve in FY2025.

*Percentage of shares outstanding (excluding treasury shares)

Financial Results for FY 2024 and Outlook for FY2025

- **Inventory adjustment of single-family home sales contracts was completed in the previous quarter, improving gross profit margin in the current quarter.**
- **For the condominium business, ¥100 billion of return to sales has been secured for the next fiscal year. This fiscal year, focused on improving gross profit margin.**
- **Property resale business, disposed of large stagnant projects in the previous fiscal year. The market conditions remain strong, and sales to overseas investors continue to be strong.**
- **Significant demand for asset diversification among the wealthy, in the U.S. real estate business.**
- **Non-asset business steadily growing as peripheral business.**
- **No changes to the three-year financial and investment shareholder return policy (2024.9.~2026.9).**
- **Maintained a healthy financial position with a 36.2% equity ratio and a net debt-to-equity ratio of 0.4 times.**
- **Recover operating margin to 10% and promote continuous EPS growth**

Real Estate Economic Research Institute "Tokyo Regional New Condominium Market Trends 2024"
 Condominiums are from January ~ September 2024.

(2) Growth Investment Policy (Investment Real Estate)

- Financial assets held by Japanese people are on the rise, developing a “622 trillion yen” wealthy market with demand for asset diversification
- Capture investment demand for inflation-resistant, leveraged physical real estate.

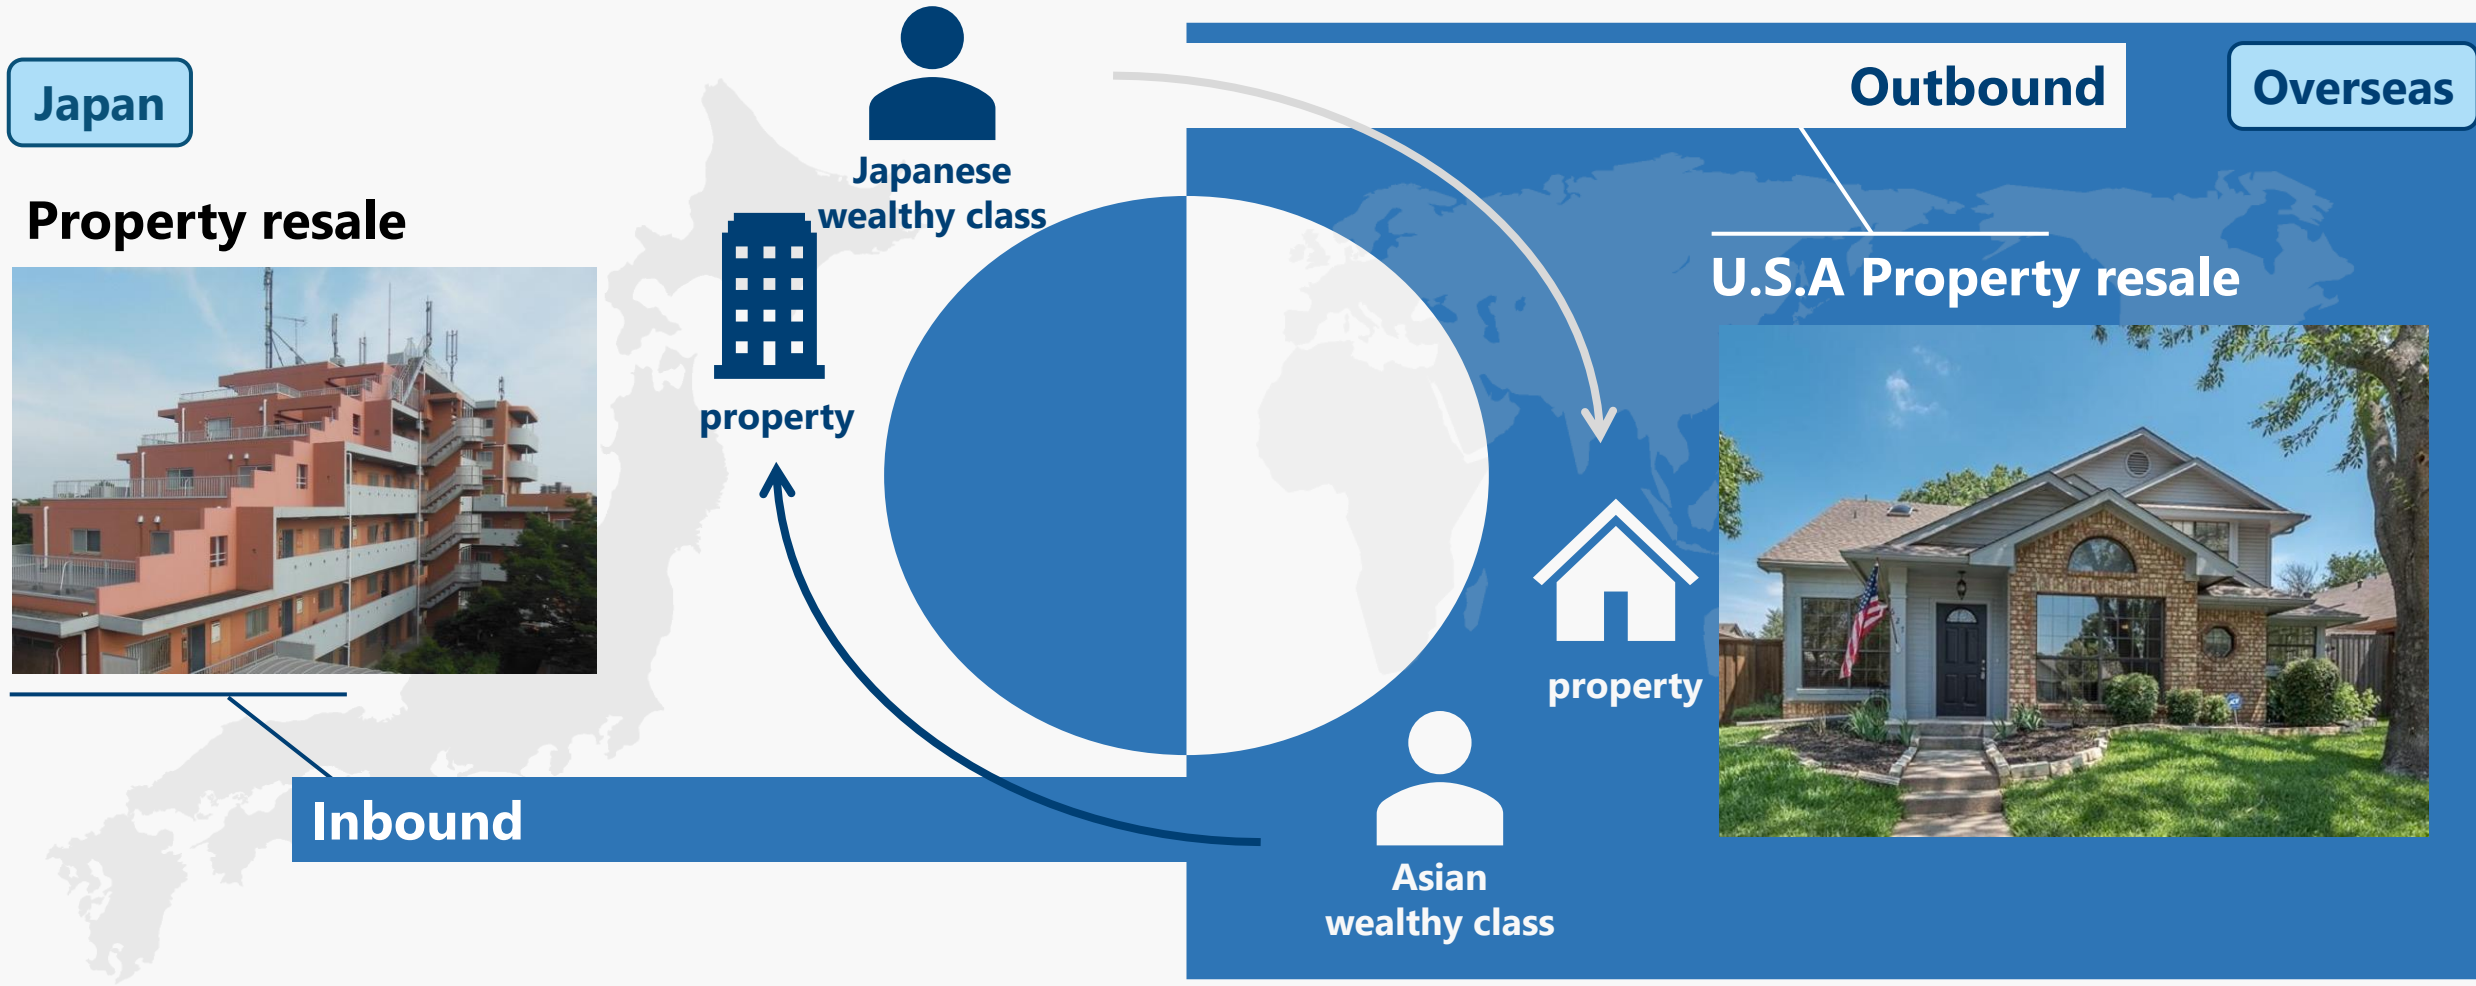

Source: Nomura Research Institute, Ltd. News release

“News Release “Nomura Research Institute estimates that there are 1.49 million affluent households in Japan with total net financial assets of 364 trillion yen.”

(2) Growth Investment Policy (Investment Real Estate)

- Provide U.S. real estate to wealthy Japanese clients and Japanese real estate to wealthy Asian clients.
- In addition to our property sourcing capabilities, we also have strong operational capabilities in U.S. real estate.

(2) Growth Investment Policy (Investment Real Estate)

- Initiated 3 new projects, in Houston, Atlanta and Fort Worth.
- Development of the first build-to-rent (BTR) specialized community, expanding the asset types.

① Apartment Complex in Los Angeles

⑦ Apartment Complex near Orlando

(3) Shareholder Return Policy

- Expected shareholders' return of 100 billion yen in total over the next 3 years.
- Implementing stable dividends (dividend payouts ratio of 20% or more) and flexible share acquisitions.

Actual Results and Plans (¥ billion)

Important Indicators

- Stable dividend (payout ratio over **20%**)
- Flexible share acquisitions

Share Acquisitions (Actual/Plan)

	Period	Amount	No. of shares	Percent
Actual	FY2024	19.8 billion yen	4,167 shares	3.46%
Plan	FY2025	20 billion yen	5,000 shares	4.29%

*percentage of total number of shares issued (excludes share acquisitions)

(4) Management Focused on Cost of Equity and Stock Price

■ Stock price has remained flat compared to the rise in EPS since the peak of FY2021.

Note: Due to the 2-for-1 stock splits conducted by the company in the fiscal years ending Sept 2015 and Sept 2019, dividends have been calculated assuming a stock split was conducted in the fiscal year ending Sept 2013.

(4) Management Focused on Cost of Equity and Stock Price

■ PBR remains above 1, while PER is generally at single-digit levels.

PBR (Stock Price/Book Value per Share)	= 1~3 times	PER (Stock Price/Book Value per Share)	= 6~12 times
--	-------------	--	--------------

(4) Management Focused on Cost of Capital and Stock Price

- ROE significantly exceeds cost of capital, with all three indicators at high levels.

CAPM-based Cost of Capital

Estimation using CAPM (Capital Asset Pricing Model)

Risk-free rate	+	β	×	Market risk premium
About 1%		About 1.2		4%~6%

Cost of Capital = 6~8%

Market-Based Cost of Capital

ROE three-factor decomposition (DuPont Analysis)

Net Sales Net Profit Margin	×	Total Asset Turnover Ratio	×	Financial Leverage
7.2%		1.0 turnover		2.8 times

ROE (FY2024 Actual Results) = 21.1%

(4) Management Focused on Cost of Capital and Stock Price

- Aim for EPS growth to enhance corporate value.

Current Understanding of Capital Costs

- The cost of capital reflects both market-wide risk and company-specific risk.
- The expected return sought by investors exceeds the cost of capital.

Direction for Enhancing Corporate Value

- The Company aims for EPS growth.
- Strengthening efforts to reduce the expected return rate sought by investors.
 - Clarifying financial policies, growth investments, shareholder return policies, and progress.
 - Promoting sustainability.
 - Strengthening governance and compliance, etc.

EPS Actual / Targets

* FY2024 Excludes the impact of the gain on negative goodwill.
 FY2025 Excludes the impact of share acquisitions to be executed.

(4) Management Focused on Cost of Capital and Stock Price (Track record)

■ Stable dividends and flexible share acquisitions.

(4) Management Focused on Cost of Capital and Stock Price (Track record)

- Achieved continued growth since our listing in FY2013. Our sales have grown 13-fold and operating income 11-fold over the past 11 years.

Note: Since the Company conducted a 2-for-1 stock split in FY2015 and FY2019, the dividends are calculated on the assumption that the stock split was conducted in FY2013.

Track Record

- Expansion of business domain and M&A while maintaining a sound financial position.

M&A

Capital Adequacy Ratio

Expand Business Areas

Strengthening Human Resource Recruitment

- Our people are the source of the Group's growth.
- Hiring key talent is one of our key management priorities.

Changes in the Number of Personnel

■ Number of New Graduates Hired

April 2024: 539 persons

April 2025: over 750 person (planned)

■ Corporate Philosophy (Value)

“Attract a wide range of motivated people and create an organization that rewards results.”

■ The President & CEO Takes the Lead in Hiring

- Assigned top salespeople from each business division to serve as recruiting staff.
- Strengthen motivation to join the company through interviews with top executives

4. Sustainability

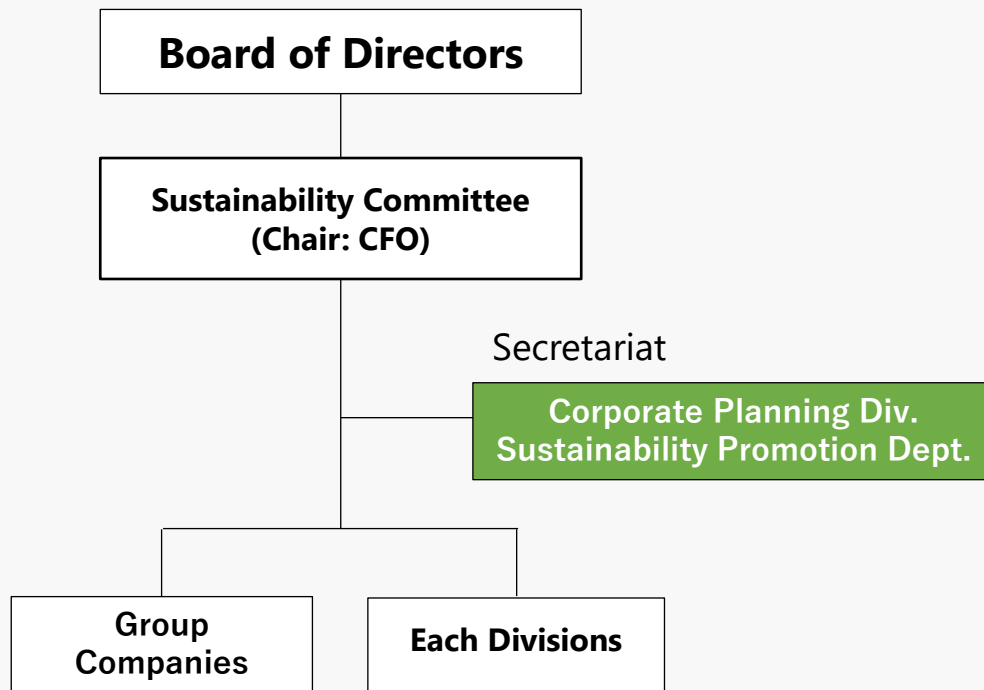

OPEN HOUSE GROUP

Strengthening the Sustainability Promotion System

- Sustainability Promotion Department established in Corporate Planning Division
- Strengthens sustainability promotion activities to further enhance corporate value

< Sustainability Promotion System >

< Established Sustainability Promotion Department >

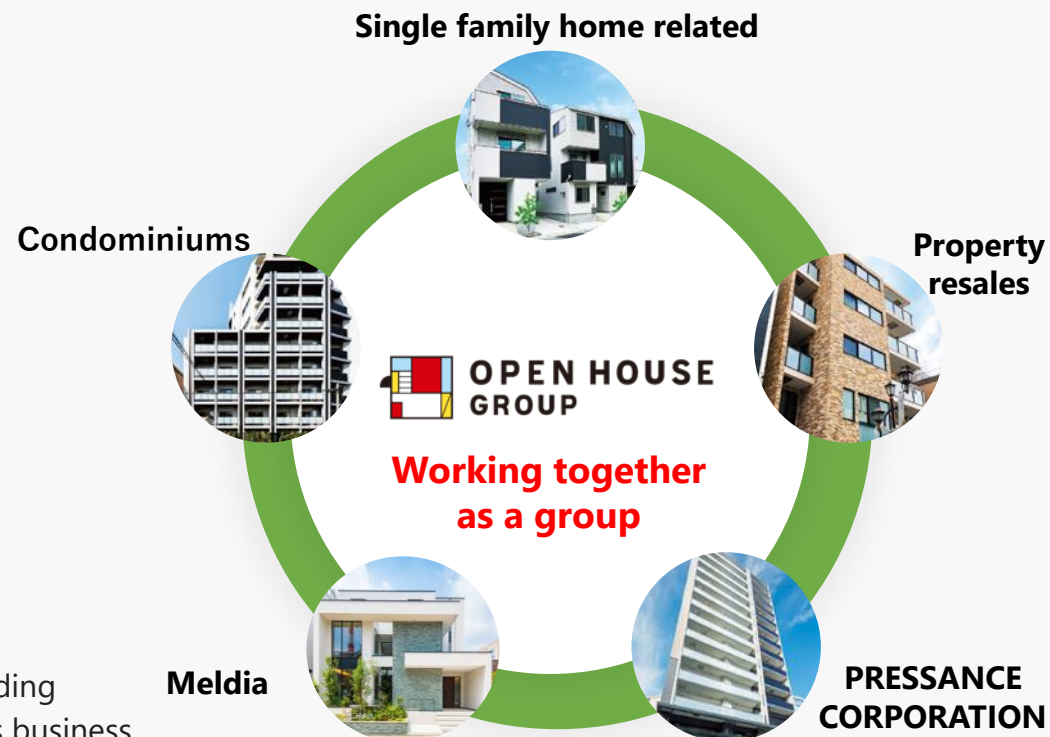

- Oversees the Group's overall sustainability promotion response (measures to reduce GHG emissions, information disclosure, etc.)
- Proposals for sustainability strategies and policies, etc.

Contribution to a Decarbonated Society (Expansion of the Scope of Calculating GHG Emissions)

- Expansion of the scope of calculation to consolidated basis *1
- With the expansion of the scope of calculation, the base year for the GHG emission reduction target was changed from FY2018 to FY2021.

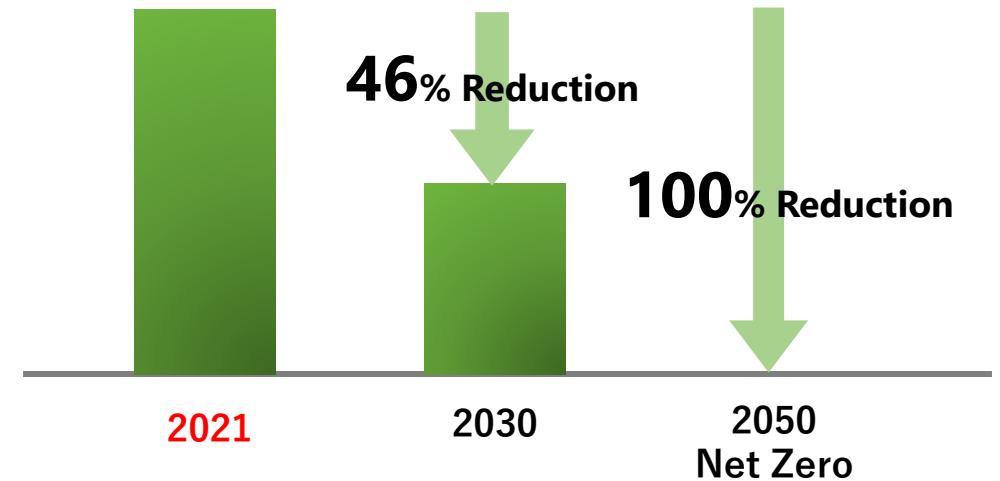

*GHG emission reduction targets remain unchanged (46% reduction by 2030, net zero by 2050).

< After change in scope calculation >

*1 Excluding overseas business etc.

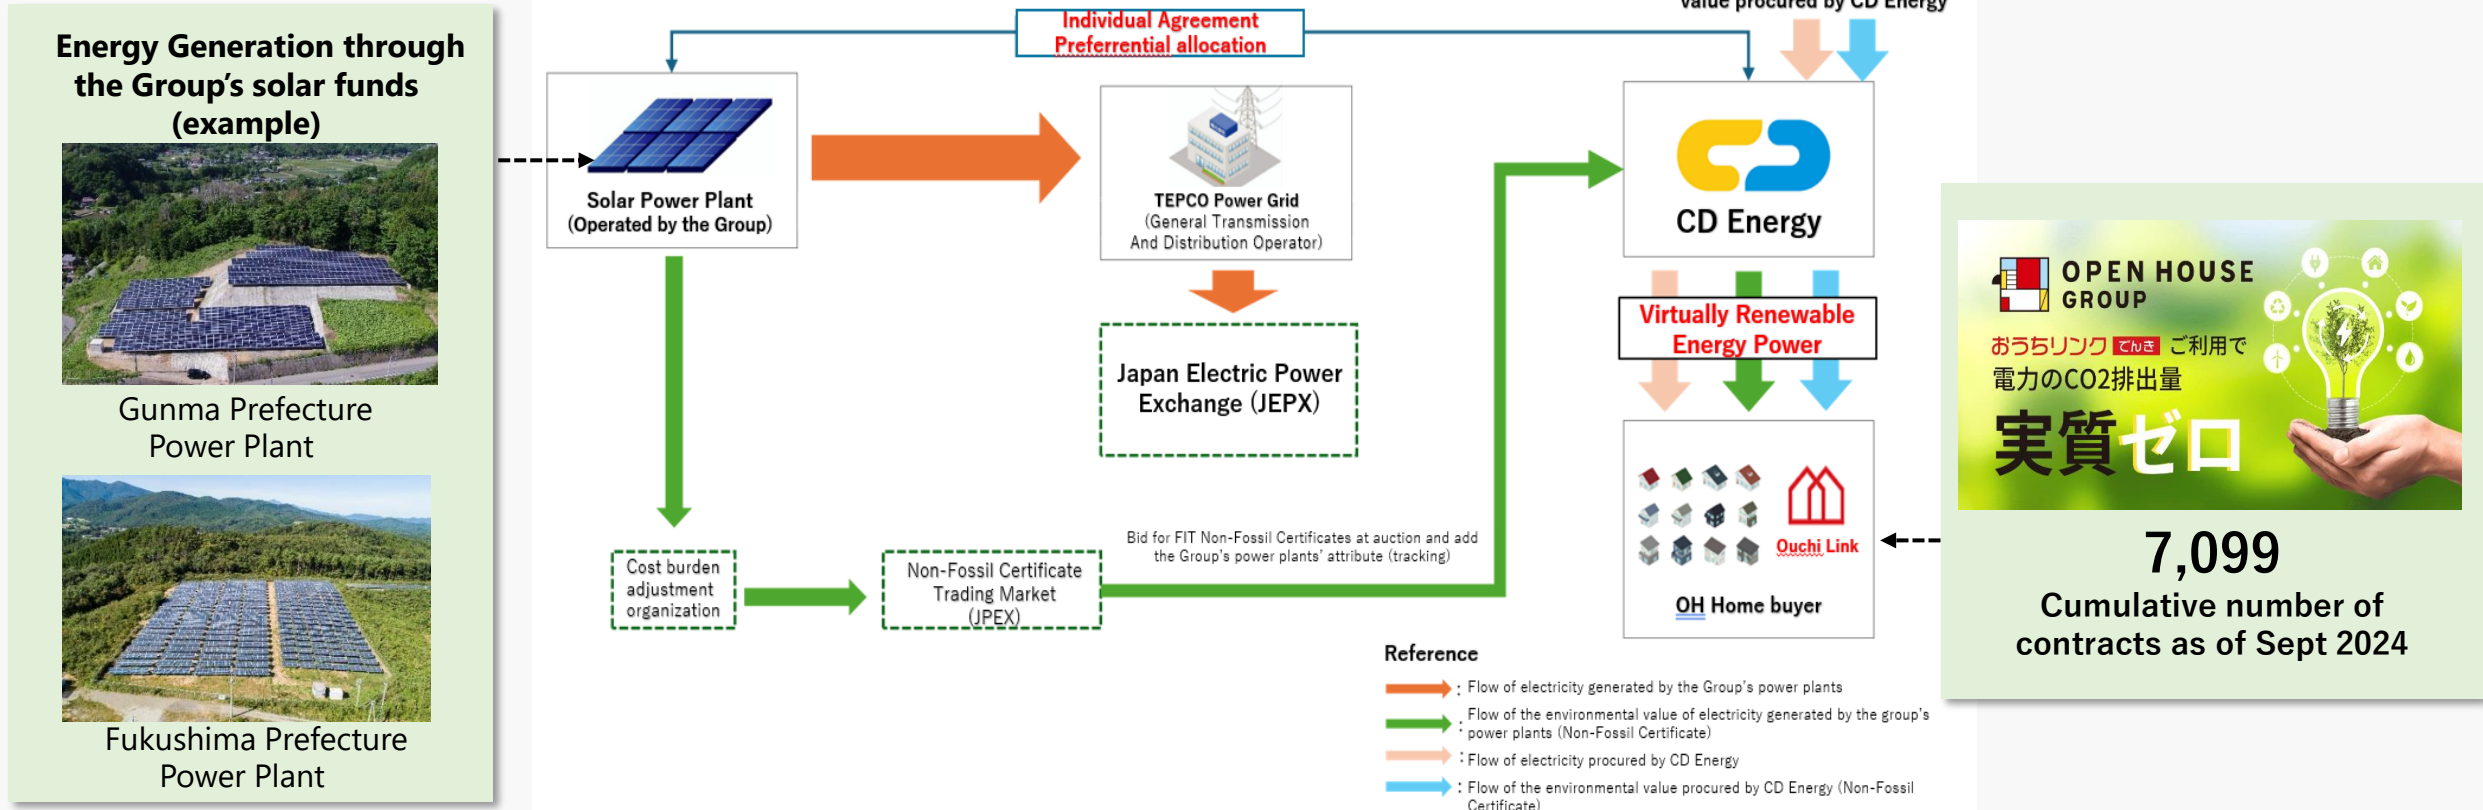

GHG (greenhouse gas) emission reduction targets (Scope 1, 2, 3 intensity compared to 2021)

Contribution to a Decarbonized Society (Provision of Virtually Renewable Energy)

- Start of providing purchased of single-family homes, with electricity from virtually 100% renewable energy sources, using renewable electricity from solar power plants operated by the Group.(December 2024).

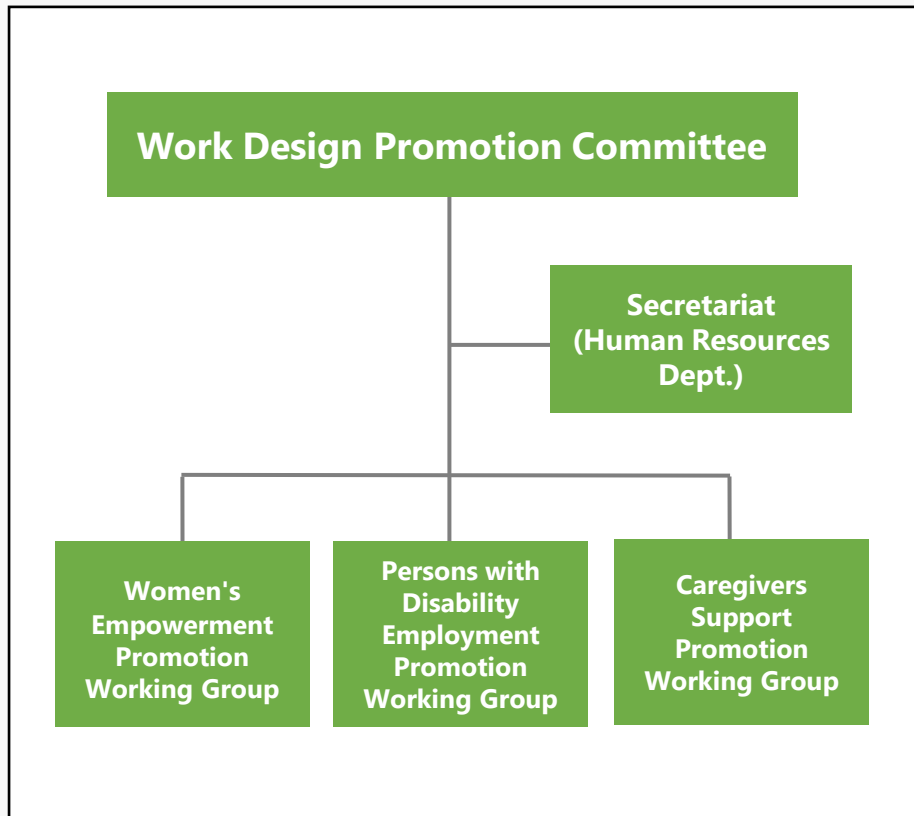

< Non-fossil certificate (with tracking) schemes based on individual agreements >

Maximizing the Value of Human Capital (Diversity)

- Promoting the creation of an environment in which a diverse workforce can flourish.

6. Supplementary Market Data

OPEN HOUSE GROUP

6. Supplemental Market Data

Inventory of newly built single-family homes increased from the latter half of 2021 and decreasing in 2024.

Inventory in Metropolitan Areas - YoY Comparison

Source: REINS Market Information: "Monthly Market Watch" New Single-Family Home Report - Inventory Status

6. Supplemental Market Data

Newly built single-family homes underwent price adjustments after a surge in sales prices due to the tailwind of COVID-19.

Sales Price in Metropolitan areas – YoY Comparison

Source: REINS Market Information:
"Monthly Market Watch" New Single-Family Home Report - Sales Price

6. Supplemental Market Data

While the current demand for newly built detached houses remains solid, the number of contracts signed is flat.

Number of contracts in the metropolitan area -
YoY comparison

Source: REINS Market Information:
"Monthly Market Watch" New Single-Family Home Report - Contract Status

6. Supplemental Market Data

The population has been concentrating and the number of households has been increasing in urban areas.

Net migration into urban cities

Number of households in major cities

6. Supplemental Market Data

Double-income households and child-rearing households are turning their eyes to urban areas, where they can reduce commuting time.

Trends in double-income households/households with full-time housewives (nationwide)

Labor force survey, the Ministry of Internal Affairs and Communications

Trends in the Proportion of Full-Time Housewives (by Age Group)

Source: "White Paper on Gender Equality 2020," Cabinet Office, Government of Japan

6. Supplemental Market Data

The number of households in urban areas is expected to continue increasing, despite a total population decline in Japan.

Future population and household estimates for Japan

Sources:
 1980-2015 : "2015 Population Census", Statistics Japan
 2015-2040 : "Population Projection for Japan, 2018 projection", "Household Projections for Japan, 2018 projection", the National Institute of Population and Social Security Research
 Number of people per household was calculated by dividing the total population by number of households.

Future household estimates for urban areas (index)

Sources: Numbers of households by city were projected with reference to "Household Projection for Japan (National Projection)" and "Population Projection for Japan by Prefectures" for 2018 projection, published by the National Institute of Population and Social Security Research, and were converted to indicators with actual results of 2010 set at 100.

6. Supplemental Market Data

In urban areas, incomes are rising more rapidly, offering promising potential for purchasing power in the housing market.

Household income and Individual income (Tokyo's 23 wards)

Household income and Individual income (nationwide)

Source: Annualized based on the actual monthly income of households (working families) with two-or-more person household, obtained from the report "Family Income and Expenditure Survey," the Ministry of Internal Affairs and Communications
 Calculated by dividing taxable income by the number of taxpayers, based on data obtained from the report "Survey of Taxation of Municipal Inhabitant Taxes, etc." by the Ministry of Internal Affairs and Communications

6. Supplemental Market Data

Price gaps between condominiums and single-family homes have occurred due to the difference between construction costs and land cost.

Construction costs per m² (in Tokyo)

(¥Thousand / m²)

Source: MLIT "Housing Starts"

The average construction cost per m² was calculated by dividing the estimated construction cost by the total floor area.

Data for ready built wooden single-family homes were used for single-family homes and data for RC and SRC apartment buildings were used for condominiums.

Land price by use (in Tokyo's 23 wards)

(Index)

Source: MLIT "Prefectural Land Price"

The standard land price as of July 1 each year is determined by prefectural governors.

The land price index of each year was calculated by using the rate of change from the land price by use in 2011, which was indexed to 100.

6. Supplemental Market Data

Options available for consumers are decreasing due to the increase in condominium prices and decrease in number of new condominiums supplied.

Number and average price of new condominiums supplied in Tokyo's 23 wards

Source: MILT, "Annual Summary of National New Condominium Market Trends"

* 1 : the average prices of condominiums have increased as a result of the sales influence from luxury developments like "Mita Garden Hills"

6. Supplemental Market Data

Prices of condominiums are less likely to fall sharply as the market is oligopolistic and dominated by major real estate companies.

Trends in the market share of seven major real estate companies in new condominiums in the Tokyo metropolitan area

Source: The share of new condominium sales in the Tokyo Metropolitan area in "Condominium Market Trends" by Real Estate Economic Institute Co., Ltd.

* Seven major real estate companies:

Sumitomo Realty & Development, Daikyo, Tokyu Land, Tokyu Tatemono, Nomura Real Estate Holdings, Mitsui Fudosan, Mitsubishi Estate

The income multiplier has increased, leading to significant disparities in household income.

House Price to Income Ratio and Household Income of Single-family Home Purchasers (in Tokyo)

House Price to Income Ratio and Household Income of Condominium Purchasers (in Tokyo)

Source: "Customer Survey on Flat 35 Users" by Japan Housing Finance Agency
 Compiled using data of housing loans approved from April through March of the following year
 Single-family homes: New home purchase funds (detached house, etc.); Condominiums: New condominium purchase funds (apartment buildings)
 Household income is the total of home loan applicants and income of his or her spouse or other person(s) living in the same household
 Home price to income ratio is calculated based on the total necessary funds including funds on hand.

6. Supplemental Market Data

Our single-family homes are deploying a dominant strategy in urban areas, steadily increasing market share.

New single-family housing starts in our service areas

Sources: "Construction Statistics", "Housing Starts", the Ministry of Land, Infrastructure, Transport and Tourism.

The Group's market share by service area

Calculated by dividing number of properties delivered in each period of the Group by the number of construction starts by area in each year.
 Until FY2018: Only Open House Development is included
 From FY2019: Hawk One is included.
 FY2021 figures are estimates divided by the number of housing starts by area in 2020 due to the period for statistical.

There is an abundant supply of aging housing stock available for development purposes.

Building stock of wooden single-family homes by construction period
